PRECISION METAL MOLDING 1961 EDITORIAL INDEX

DIE CASTINGS

A New Approach to Die Casting Automation ..... Nov. p. 104
A New Fire Resistant Fluid ..... Nov. p. 101
Aluminum Die Castings Save Weight ..... Oct. p. 84
Automobile Bright-Work Gets a New Lease ..... Oct. p. 73
Barrel Finishing Die Castings ..... Feb. p. 43
Buying Practices for Die Castings ..... Nov. p. 38
Design and Development in Laundry Equipment ..... Mar. p. 36
Die Cast Architectural Screen ..... Mar. p. 48
Die Cast for Sales Appeal ..... Feb. p. 47
Die Casting Directory and Buyers Guide, Fifth Annual ..... Jan. p. 71
Die Casting For More Fire Power ..... April p. 52
Die Casting Solves Finishing Problems ..... Sept. p.105
Die Castings ..... Mar. p. 37
Die Castings Can Be Adhesive Bonded ..... July p. 70
Die Castings Make The Home Workshop ..... Jan. p. 42
Die Castings Seal Jet Liner Fuel Tanks ..... Aug. p. 30
Extrusions and Die Castings Make Rugged Camera ..... April p. 32
FORECAST for 1962
What the PMM Parts Producers Forecast ..... Sept. p. 54
Gating Zinc Die Castings ..... May p. 40, June p. 39, July p. 42, Sept. p. 114
Hardcoat Makes Aluminum Hard as Glass ..... Dec. p. 47
How Die Casting Design Affects Tooling Costs ..... May p. 43
Improved Product Design ..... Feb. p. 30
Jewelry Finish Plating on Zinc Die Castings ..... Feb. p. 45
Light, Strong Fishing Tackle ..... Dec. p. 36
Metal Choice ..... Oct. p. 43
Must You Machine That Part? ..... June p. 23
New Zinc Die Casting Alloy ..... Feb. p. 29
1961 Zinc Die Casting of the Year ..... Nov. p. 56
Organic Finishing Zinc and Aluminum Die Casting ..... March p. 46
The Physical and Mechanical Properties of Metals and Alloys ..... Oct. p. 60
Plastic Castings for Checking Die Castings ..... March p. 58
Prototype Die Castings ..... Dec. p. 33
Purchasing Practices and Policies ..... March. p. 41
The Role of Production Engineering ..... March p. 39
Safe Cyanide Disposal ..... Aug. p. 41
Safety and Marketing Studied by ADCI ..... Oct. p. 96
Save $30,000 a Year Deburring Die Castings ..... Jan. p. 51
Sintered Insert Shaves Cost of Die Cast Engine Flywheel ..... Sept. p. 79
Small Die Castings for Record Players ..... March p. 80
Stronger-Cheaper Zinc File Bases ..... Jan. p. 63
Thick Chromium Plating for Better Corrosion Resistance ..... April p. 59
This is Good Die Casting Design ..... July p. 30
Two Men Burned by Flaming Oil Stream ..... Sept. p. 84
Vibratory Finishing ..... Jan. p. 54
Washing Machine Agitator Requires Little Buffing ..... Feb. p. 60
Why Magtag Uses Die Castings and Sinterings ..... Mar. p. 35
Why Product Designers Specify Die Castings ..... May p. 33
Zinc Die Castings Foil Yeggs ..... June p. 34

EXTRUSIONS

Aluminum Extrusions are Versatile ..... Feb. p. 36
B-70 gets 700 Shapes from 350 Extrusions ..... Aug. p. 23
B-70 Program Develops High Performance Materials ..... Aug. p. 32
Better Lighting with Extruded Louvers ..... July p. 40
Buying Practices for Extrusions ..... Nov. p. 43
Copper-Base Extrusions ..... May p. 35, June p. 27
Design With Aluminum Extrusions ..... April p. 35
Extrusions and Die Castings Make Rugged Camera ..... April p. 32
Extruded Magnesium Pellets ..... Jan. p. 35, Mar. p. 50
Extrusion Replaces a Forging ..... Jan. p. 44
FORECAST for 1962
What the PMM Parts Producers Forecast ..... Sept. p. 54
Hardcoat Makes Aluminum Hard as Glass ..... Dec. p. 47
How to Polish Long Extrusions—Automatically ..... Mar. p. 63
Impact Extrusions ..... July p. 28
Low Tooling Costs for Impact Extrusions ..... Mar. p. 52
Machining and Surface Finishing Extrusions ..... June p. 47
Metal Choice ..... Oct. p. 43
New Porcelain Enamel for Steel Extrusions ..... Sept. p. 91
The Physical and Mechanical Properties of Metals and Alloys ..... Oct. p. 60
Porcelain-Enameled Aluminum Extrusions ..... May p. 61
Self-Fastening Extrusion Used for Sun Screen Frame ..... July p. 34
They're Designing New Products to Use Aluminum Extrusions ..... Dec. p. 25

FINISHING

Automobile Bright-Work Gets a New Lease ..... Oct. p. 73
Barrel Finishing Die Castings ..... Feb. p. 43
Designing for Barrel and Vibratory Finishing ..... July p. 45
Die Casting Solves Finishing Problems ..... Sept. p. 105
FORECAST FOR 1962
What the PMM Parts Producers Forecast ..... Sept. p. 54
Hardcoat Makes Aluminum Hard as Glass ..... Dec. p. 47
Horizontal Barrel and Vibratory Finishing ..... Oct. p. 77
How to Polish Long Extrusions—Automatically ..... Mar. p. 63
Jewelry Finish Plating on Zinc Die Castings ..... Feb. p. 45
Machining and Surface Finishing Extrusions ..... June p. 47
Metal Choice ..... Oct. p. 43

STRENGTH
TOUGHNESS
HARDNESS in Sintered Steels

Alloy mixtures engineered to your requirements now available offering unique combinations of:

Compressibility
Dimensional Stability
Zero Growth

Vibratory Finishing ..... Jan. p. 54

INVESTMENT CASTINGS

Alloy "713C" Has Good Properties to 1800°F. ..... June p. 44
An Industry Researches for a Better Product ..... June p. 58
B-70 FORECAST—Steel Investment Castings for Supersonic Transports ..... Aug. p. 26
Buying Practices for Investment Castings ..... Nov. p. 41
Carbon Restoration in Investment Castings ..... Oct. p. 86
Cerium Sulfide Cores ..... April p. 46
Convair 900—Investment Castings ..... Aug. p. 28
Criteria for Using Investment Castings ..... June p. 69
Critical Tolerances are Held on Investment Cast Clutch-Plates ..... Feb. p. 34
Ethyl Silicate Binder for Investment Molds ..... June p. 31
FORECAST for 1962
What the PMM Parts Producers Forecast ..... Sept. p. 54
Good Wear and Conductivity with Beryllium Copper ..... July p. 39
Heat Treatment of Cast Stainless Steels, Part II ..... Jan. p. 39
Heat Treatment of Cast Stainless Steels ..... Mar. p. 56
Investment Cast Micro-Switch ..... Mar. p. 80
Investment Casting Replaces Machined Parts ..... July p. 38
Lower Cost Crucibles ..... Jan. p. 129
Magnesium Alloys Can Be Investment Cast ..... April p. 43
Metal Choice ..... Oct. p. 43
More Complex Hollow Components ..... May p. 53
Most Magnesium Alloys Can Be Investment Cast ..... Mar. p. 53
One Casting, Not Multiple Stampings ..... July p. 38
Penny-Sized Investment Castings ..... April p. 52
The Physical and Mechanical Properties of Metals and Alloys ..... Oct. p. 60
Tantung Investment Casting ..... May p. 49
Too Fragile, Too Small, Too Intricate ..... July p. 39
Value Analysis Can Get You More Jobs ..... Nov. p. 50
Variable Thickness is No Problem ..... July p. 38
Wrench Parts Investment Cast ..... Jan. p. 70

PERMANENT MOLD CASTING

A Cast Iron Permanent Mold Casting ..... May p. 46
Design and Development in Laundry Equipment ..... Mar. p. 36
FORECAST for 1962
What the PMM Parts Producers Forecast ..... Sept. p. 54
Hardcoat Makes Aluminum Hard as Glass ..... Dec. p. 47
Metal Choice ..... Oct. p. 43
Nickel Carbonyl Mold Making Process ..... April p. 48
Permanent Mold Casting Exceeds Strength Requirements ..... Dec. p. 38
Permanent Mold Castings ..... Mar. p. 42
The Physical and Mechanical Properties of Metals and Alloys ..... Oct. p. 60
Purchasing Practices and Policies ..... Mar. p. 41
Rain for Rent ..... Dec. p. 41
Why Maytag Uses Die Castings and Sinterings ..... Mar. p. 35

PLASTER MOLD CASTINGS

FORECAST for 1962
What the PMM Parts Producers Forecast ..... Sept. p. 54

POWDER METALLURGY PARTS

Blending Metal Powders ..... July p. 36
Brass Gears and Cams Win 1961 Prize ..... June p. 42
Buying Practices for Powder Metallurgy Parts ..... Nov. p. 46
Carbon-Graphite Parts Improve Pump Design ..... April p. 56
Clean Up Your Specifications ..... April p. 31
Composite Powders ..... April p. 54
Cylinder Liner Cuts Ring Wear ..... Sept. p. 105
Design and Development in Laundry Equipment ..... Mar. p. 36
Designing for Powder Metallurgy ..... May p. 56, June p. 24, July p. 25, Aug. p. 36, Sept. p. 80, Oct. p. 69, Nov. p. 58
FORECAST for 1962
What the PMM Parts Producers Forecast ..... Sept. p. 54
Here is How Maytag Makes Sinterings ..... Mar. p. 44
Make Better Use of Powder Metallurgy Parts ..... April p. 27
The Maytag Policy ..... Mar. p. 35
Metal Choice ..... Oct. p. 43
Nickel Carbonyl Mold Making Process ..... April p. 48
1961 MPIF Annual Meeting and Powder Metallurgy Show ..... April p. 88
Non-Ferrous Powder Metallurgy Awards ..... July p. 32
The Physical and Mechanical Properties of Metals and Alloys ..... Oct. p. 60
Powder Metallurgy Operations at Maytag ..... Mar. p. 43
Press-Sinter-Use ..... Jan. p. 70
Prototype Tooling for Powdered Metal Parts ..... Dec. p. 28
Purchasing Practices and Policies ..... Mar. p. 41
10th Annual Powder Metallurgy Directory and Buyers Guide ..... April p. 91
The Role of Production Engineering ..... Mar. p. 39
Sintered Insert Shaves Cost of Die Cast Engine Flywheel ..... Sept. p. 79
Sintered Lever is as Durable as Steel ..... Feb. p. 34
Sintered Stainless Steel Powders, Part II ..... Jan. p. 46
Sintered Tungsten Alloy for High Density Application ..... Dec. p. 44
Sintered Valve Cover ..... Feb. p. 40
The Sintering of Tungsten & Molybdenum ..... Oct. p. 88
V-Grooved Pulley Sintered as One Piece ..... Jan. p. 65
Why Maytag Uses Die Castings and Sinterings ..... Mar. p. 35

3 good reasons

WHY YOU CAN RELY ON

ROGERS INDUSTRIES

FOR ALL YOUR

ALUMINUM EXTRUSIONS

1 ENGINEERING CONSULTATION

Rogers' skilled engineering staff specializes in solving production problems—developing improvements for the extrusions you now use, and *new* cost-saving applications you may have overlooked.

2 QUALITY CONTROL

Rogers' production experience and inspection techniques assure you fine quality Extrusions . . . strict adherence to close tolerances and good finishes.

3 HUGE INVENTORY —PRESS CAPACITY

Rogers maintains full stock at all times, provides multiple-press operation for complete, dependable service. Fleet of Roger's trucks assures prompt delivery.
